

Q3 Registration notice

By what method will the registration of a qualified billing service provider be notified?

A3. For notification of registration as a qualified billing business operator, if you submit an application for registration via e-tax and request electronic notification of registration, a registration notice with your registration number will be stored in the list of notices in data format, otherwise, a registration notice with your registration number will be sent to you in writing. In other cases, a registration notice with the registration number will be sent to you in writing.

By requesting registration notification in electronic form, you will be able to electronic notification is sent as soon as possible after processing by the tax office, so you can receive your registration notice earlier than with written documents.

The data is stored in the list of notices, so there is no risk of losing registration notices (stored data can be printed out in writing or saved as PDF data).

We hope you will take advantage of these and other benefits.

In principle, the registration notice will not be reissued, so please keep it in a safe place.
